

CSWC Operational Period Summary

1800 March 29 to 0600 March 30 2014

Winter-like Weather for the weekend. Photo: Alan Blaich/KCRA

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Magnitude 5.1 Earthquake, La Habra, Orange County

On 03/28/2014 at 2109 hours, the California State Warning Center was advised that a verified magnitude 5.1 earthquake occurred 2 miles east of La Habra in Orange County.

- On 03/29/14 at 1432 hours, a verified 4.1 magnitude (initially verified at 4.5 magnitude) aftershock occurred 20 miles southeast of Los Angeles. Per Los Angeles and Orange County Warning Points, there is no report of any damage or injuries.
- Please see Southern California Significant Events slides for detailed information.

SITUATION SUMMARY

FEMA US&R Activation Order # 2014-0001a, 2014-FIRE-2588, Washington Mudslide Incident

- On 03/24/13, the Warning Center received FEMA US&R Activation Orders for California US&R Task Force Members from the White Incident Support Team (IST) in response to the Washington Mudslide Incident. The California State Warning Center provided the Activation Order to the respective Task Force dispatch centers and the Cal OES Fire Duty Officer. A Cal OES Mission Number has been assigned for this activation.

Situation Overview:

- Search and rescue operations are continuing, with more than 225 responders in the field and 72 overhead staff on scene, including National, State and local Urban Search and Rescue teams and other federal, state, mutual aid and regional technical rescue volunteers. More than 12 search dog teams are on scene/alternating search periods. Operations for the incident response are now divided into two branches. The catastrophic slide that occurred on Saturday, March 22, separated the communities of Arlington and Darrington. To operate recovery efforts more efficiently, incident officials have divided the slide area into a West Branch based in Arlington and an East Branch in Darrington. A Washington National Guard (NG) Search and Extraction Team is on site, in addition, an 11 member Fatality Search and Recovery Team is being deployed, and a 50 person Search and Extraction team from Colorado will arrive Sunday to serve as force multipliers and allow for extended working hours.

Alaska Shield 2014

- 2014-FIRE-2622** Cal OES Assistant Fire Chief Chesmore deployed on March 27, 2014, with 72 CA-TF3 members, Menlo Park Fire Protection District (MNL) to Alaska for a training exercise under the direction of FEMA as part of Alaska Shield. They will be conducting 24 hour operations and return on Saturday, March 29. [On 3/30/2014 at 0330 hours, Chief Chesmore advised that he has returned home from the exercise.](#)

SITUATION SUMMARY

Significant Weather

- Winter Storm Watch is in effect from Monday morning through late Monday night above 3500 feet for areas in Shasta, Colusa, Glenn, Lake, Tehama, Del Norte, Trinity, Humboldt, Mendocino Counties.
- Winter Storm Watch in effect from this evening through Monday evening for areas in Siskiyou County
- Winter Storm Watch in effect from Monday afternoon through Tuesday morning for areas in Butte, Lassen Plumas, Shasta, Tehama, Alpine, Amador, Calaveras, El Dorado, Nevada, Placer, Sierra, Tuolumne, Yuba Counties
- Winter Storm Watch in effect from Monday afternoon through Tuesday evening above 5000 feet for areas of Fresno, Madera, Mariposa, Tuolumne, and Tulare Counties.

SITUATION SUMMARY

Significant Weather (Cont.)

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Weak upper ridging passing over Northwestern California will result in a drier day, but isolated showers will persist throughout today. A colder storm system will bring more widespread rain and snow Monday and Tuesday. An unsettled weather pattern will persist through the week maintaining chances of precipitation into next weekend.

San Francisco Weather:

Isolated showers are possible over the San Francisco Bay Area hills Sunday afternoon. Otherwise Sunday will be a dry day under partly cloudy skies. A robust cold front will spread rain across the region on Monday along with gusty winds. Showers and possible thunderstorms are forecast from Monday night through Tuesday evening. Showers may linger over the Monterey Bay area into Wednesday. Rainfall later in the week now appears less likely.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Isolated showers possible today then a colder Pacific storm brings more precipitation to the Northern California interior Monday into Wednesday; with snow levels lowering into the foothills late Monday into Tuesday. Weak system later in the week will continue a slight threat of precipitation mainly in the mountains.

Hanford Weather:

Low pressure will moves east this morning giving way to brief high pressure tonight and Monday. Another Pacific storm will move into Central California Monday night through Tuesday once again increasing precipitation chances. High pressure will then return for drying and warming conditions by later in the week.

WEATHER SYNOPSIS BY REGION: (Con't)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Three weather systems will affect our weather in the next 7 days. The first front will bring a few showers to the Los Angeles area this morning. The second system is expected to bring heavier rain amounts Monday night into Tuesday night with light amounts of snow in the mountains. The third system will bring light showers on Thursday. Temperatures will remain below normal.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A trough of low pressure and weakening cold front will move inland through Southern California this morning bringing stronger onshore flow with gusty west winds to around 50 mph in the mountains and deserts and a slight chance of light precipitation along and west of the mountains. Continued cooling for Monday is expected. For Monday night through Wednesday, a low pressure system from the Gulf of Alaska will bring strong gusty west winds for the mountains and deserts with one round of light precipitation late Monday night into early Tuesday and a second round from late Tuesday night into Wednesday. A continued cooling trend with smaller chances for light precipitation is projected for Thursday and Friday then dry and warmer conditions for next weekend with a strengthening high pressure off the West Coast.

Southeast California Weather:

A storm system moving in from the Pacific will continue to push through Southeastern California today. Strong gusty winds are expected for most of the tri-state area. Rain showers and higher elevation snows are expected for the Sierras. Another storm system is expected late Monday into Wednesday.

WEATHER

Unsettled Weather Expected through Wednesday for Southern California

Synopsis:

- Several storm systems will move across the area tonight through Wednesday. The main system will be Monday night, followed by a short break, then another system Tuesday night into Wednesday morning. There is the potential for heavy downpours along the front Monday night across Ventura and Los Angeles Counties, then again in heavy showers Tuesday night into Wednesday. Snow could also accumulate at times across the Grapevine on I-5 from Monday night into Wednesday.
- **Rainfall totals:** Monday night-Wednesday will range from 0.25-0.75" with up to 1.5" for south-facing foothills and mountains. Amounts could be heavier depending on the storm track and intensity of showers.

Main Impacts:

- **Small Debris Flows near Recent Burn Areas** - Heavy downpours may develop along a cold front Monday night, then again Tuesday night when unstable air moves over southwest CA. Recent burn areas in Ventura and Los Angeles Counties may experience debris flows during short, intense rainfall. The main burn areas of concern include the Powerhouse, Colby, Madison, and the Williams Fires.
- **Slick mountain highways** - Snow levels will fall Monday night to 4500 feet and remain low through Wednesday. Accumulating snowfall could occur along Interstate 5 over the Grapevine and roads in the Angeles National Forest during this period creating travel delays or brief closures.

Forecast Confidence:

- Moderate confidence on precipitation totals. Low confidence on the storm track and intensity of rainfall.

WEATHER

Unsettled Weather Expected through Wednesday for Southern California (Cont.)

Unsettled Weather Thru Wednesday for SW California

Tonight-Sunday Morning:

- ❖ Rainfall amounts:
 - Central Coast & Northern Mountain Slopes 0.10" - 0.50"
 - Less than 0.10" elsewhere
- ❖ Gusty west to north winds mountains and desert
- ❖ Snow levels above 5500 feet

Potential Impacts:

- ❖ Crosswinds for high profile vehicles and trailers.
- ❖ Blowing dust in the desert

Monday Evening – Wednesday:

- ❖ Potentially stronger storm:
 - Rainfall estimates 0.25" – 0.75"
 - Locally 1.5" south mountain slopes
- ❖ Heavy downpours and small hail
- ❖ Gusty southwest winds
- ❖ Snow level above 4500 feet with accumulations

Potential Impacts:

- ❖ Minor debris flows near burn areas
- ❖ Slick travel along Interstate 5 due to snow

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

SIGNIFICANT EVENTS / ACTIVITY

Southern California

Magnitude 5.1 Earthquake, La Habra, Orange County

Situation Overview:

On 03/28/2014 at 2109 hours, the California State Warning Center was advised that a verified magnitude 5.1 earthquake occurred 2 miles east of La Habra in Orange County. The Orange and Los Angeles County Warning Points had no initial reports of damage or injuries.

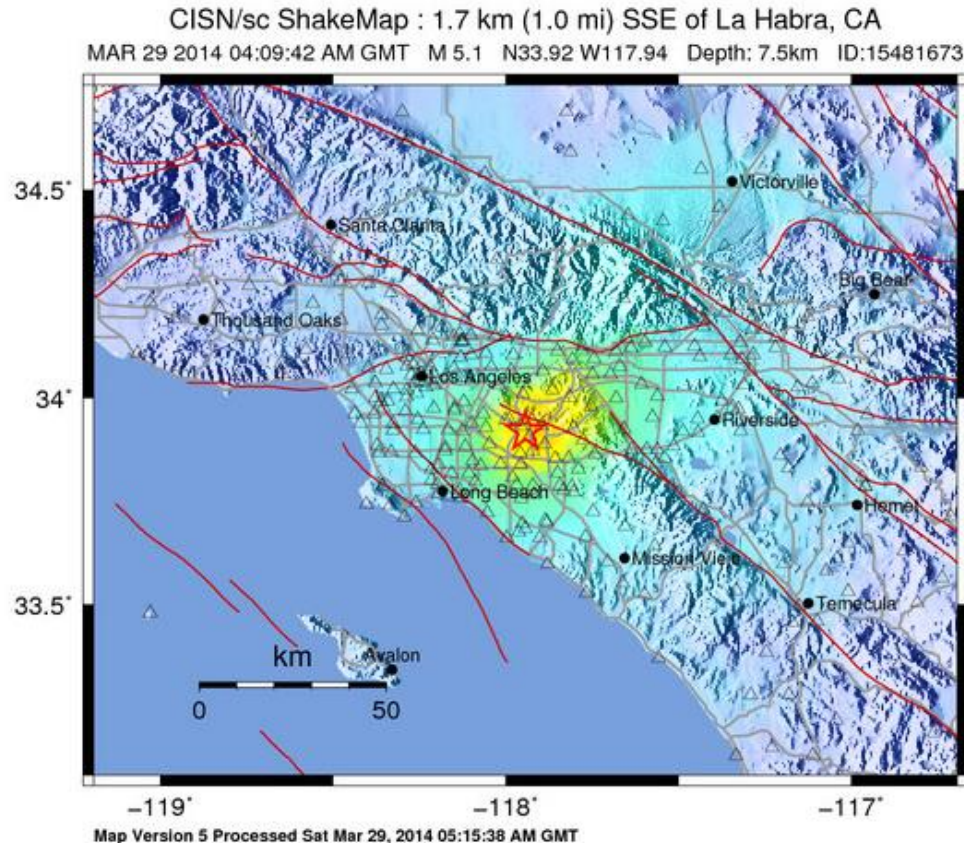

On 03/29/14 at 1432 hours, a verified 4.1 magnitude (initially verified at 4.5 magnitude) aftershock occurred 20 miles southeast of Los Angeles. Per Los Angeles and Orange County Warning Points, there is no report of any damage or injuries.

The Cal OES Southern Region, Law Enforcement and Fire Duty Officers are in contact with local authorities and will provide updates as they become available.

 OF EMERGENCY SERVICES

SIGNIFICANT EVENTS / ACTIVITY

Southern California

Magnitude 5.1 Earthquake, La Habra, Orange County

Situation Update 03/29/2014 as of 1830 hours:

Per the Cal OES Earthquake and Tsunami Program Manager:

- Doug Given, CISN Southern Operations Duty Officer, stated that a M5.1 earthquake occurred 1 mile SSE of La Habra in Southern California. It was preceded by two foreshocks and is now experiencing aftershocks. U.S. Geological Survey (USGS) computer analysis suggests there is a low likelihood of casualties and damage. Overall, the population in this region resides in structures that are highly resistant to earthquake shaking, though some vulnerable structures exist.
- John Parrish, State Geologist, California Geological Survey, advised that the temblors were "east-west trending" suggesting the activity was occurring on the Puente Hills fault, which is a blind thrust fault.
- Per Egill Hauksson, CISN Southern California Seismic Center (SCSC), the M4.1 earthquake that occurred at 1432 Hours on 3/29/14 is an aftershock of the M5.1 event that occurred at 2109 Hours on 3/28/2014. It is located at the very north-east end of the aftershock zone at a depth of 7.2 km. This development indicates growth of the aftershock zone to the northeast. CISN SCSC continues to analyze the aftershock sequence and will provide new information as warranted.

SIGNIFICANT EVENTS / ACTIVITY (Cont.)

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

Per the Cal OES Southern Region, the Operational Area provided the following Situation Status:

- The Operational Area agencies and jurisdictions continue to conduct damage inspections.
- Orange County Emergency Management Division (EMD) will continue to monitor the situation and will provide additional information as necessary.

SIGNIFICANT EVENTS / ACTIVITY (Cont.)

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

Per the Cal OES Southern Region, the Operational Area provided the following Situation Status: (Cont.)

Cities reporting with multiple incident and impacts include:

- La Habra
- Brea
- Fullerton

Activations:

- There are currently no activations

Initial Damage Estimate:

- Orange County is currently awaiting Initial Damage Estimates to establish the case for a local proclamation and whether or not a State or Federal proclamation would be warranted. Orange County expect to have more information on Monday. Currently no Cities have proclaimed.

City of Fullerton:

- Multiple sprinkler risers activated in businesses.
- 6 homes and 20 condo units have been damaged but the 73 displaced residents have been allowed back into their residences.
- Two (2) block walls blocking sidewalks.

SIGNIFICANT EVENTS / ACTIVITY (Cont.)

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

**Per the Cal OES Southern Region, the Operational Area provided the following Situation Status:
(Cont.)**

Infrastructure

Transportation:

- No damage or service interruptions to railways or bus service.
- No impacts to John Wayne or Fullerton Airports.
- Per Joint Forces Training Base Los Alamitos, two taxiways are closed at the airfield due to cracks in the tarmac as a result of the quake. Engineers will inspect the surface next week and the closure does not interfere with normal airfield operations.

Dams:

- No damage reported at this time.
- Per Army Corps of Engineers, Engineering staff will begin inspections of Brea, Fullerton, and Carbon Canyon this morning and on Monday, Dam Operations staff will inspect Prado, Santa Fe, San Antonio, and Whittier Narrows. All county dams have been inspected and found to have minimal overall impact.

SIGNIFICANT EVENTS / ACTIVITY (Cont.)

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

Per the Cal OES Southern Region, the Operational Area provided the following Situation Status: (Cont.)

Infrastructure (Cont.)

Water:

- Water main breaks in Buena Park (1), Fullerton (6), La Habra (2).
- All water mains and water pipes repairs are in progress and the water pipe impacts have been mitigated.
- No mutual water assistance requested at this time.

Natural Gas:

- All pipelines at SoCal Gas facilities have been surveyed and no leaks were identified. 252 odors of gas were reported from customers since last night but all have been cleared except one in Rowland Heights, which has repairs currently in progress.

Schools:

- No known school impacts at this time.
- Cal State Fullerton has no impacts at this time.

SIGNIFICANT EVENTS / ACTIVITY (Cont.)

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

Per the California Department of Public Health/EMSA (CDPH/EMSA):

- [Current Operational Area Medical Health \(OA MH\) Condition – Green \(Normal Operations\)](#)

Per the California Department of Transportation (Caltrans):

- Per Caltrans HQ Comm Center, SR142 is closed from Carbon Canyon Rd to Olinda Dr. in Brea due to rock slides from the earthquake. A Geologist found unstable slide material and has issued emergency contract work.
- Contractors are on scene and are working on a temporary fixed slope on SR142. The temporary fixed slope is expected to be finished on Monday and the roadway is expected to reopen on Tuesday morning. A permanent fix will be completed next weekend.

SIGNIFICANT EVENTS / ACTIVITY (Cont.)

FEMA US&R Activation Order # 2014-0001a, 2014-FIRE-2588, Washington Mudslide Incident

On 03/24/13, the Warning Center received FEMA US&R Activation Orders for California US&R Task Force Members from the White Incident Support Team (IST) in response to the Washington Mudslide Incident. The California State Warning Center provided the Activation Order to the respective Task Force dispatch centers and the Cal OES Fire Duty Officer. A Cal OES Mission Number has been assigned for this activation.

White IST Members from the following US&R Task Forces have been activated:

- CA- TF 1: L.A. City Fire – 2 personnel
- CA- TF 6: Riverside City Fire – 8 personnel
- CA- TF 7: Sacramento City Fire – 3 personnel
- CA- TF 7: San Diego Fire – 2 personnel
- CA-TF 8: Chula Vista FD – 1 personnel
- CA-TF 8: San Marcos FD – 1 personnel

SIGNIFICANT EVENTS / ACTIVITY

National Weather Service - San Diego, CA

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Situational Summary

Information as of 3/24/14

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

Beginning Tuesday, March 25, 2014, several storms will travel through the state that will possibly bring significant rain and snow. Precipitation is predicted to be heaviest in the far northern portion of the state.

As our state's rainy season nears its end, much of California has received only about 50% of normal precipitation for this rainy season. Heavy rain and snow would have to fall throughout California most days in April to reach average annual rain and snowfall levels, which is highly unlikely. Even with such precipitation, California would remain in drought conditions, due to low water supplies in reservoirs from the two previous dry years.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (cont'd)

Information as of 3/24/14

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The most recent snowpack survey, conducted on February 27, recorded California snowpack at 24% of normal. The next snowpack survey will be conducted April 1. A more recent update using automated devices shows snowpack at 24% of normal as of March 23.
- DWR has announced that water essential for health and safety will be delivered through the state water project in spite of the zero allocation policy. Deliveries will be boosted if storms produce enough rain and snow to increase reservoir storage and the snow pack.
- On March 27, 2014, SWRCB will be at the groundbreaking ceremony for the City of Visalia's \$147 million Water Conservation Plant upgrade and recycled water distribution pipeline, made possible by an earlier CWA SRF loan from the State Water Board.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Current Drought Updates:

- 2014 Drought Response Report will be updated again on 04/01/14 unless the situation warrants.

Declarations/Resolutions/Proclamations: (No Change)

State:

01/17/14 – January 17, 2014, Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-FIRE-2588** Cal OES Fire Branch has opened a mission to coordinate and track Urban Search and Rescue (US&R) personnel assigned and deployed in support of response and recovery efforts due to a large landslide that occurred on 3/22/14 in Oso, Snohomish County, Washington State. FEMA US&R Activation Order attached with this mission is 2014-0001a.
- **2014-FIRE-2548** CAL FIRE request for an aircraft and aircrews with fuel tenders to support the annual joint CNG, MHEM/AAML Training at the CAL FIRE Academy from 04/04/14 to 04/06/14 . All costs incurred for CNG personnel, fuel, equipment, and assets will be assumed by CNG.
- **2014-LAW-2483** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Ongoing Cal OES Missions (Cont.)

- **2014-LAW-2478** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NASCAR Racing Event at Sonoma Raceway June 20-22. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2450** Santa Barbara County Sheriff's Department is requesting ten Search and Rescue personnel that are EMS certified to assist with a special event. Resource will be needed from 1100 hours till Midnight on April 8, 2014. San Luis Obispo County Sheriff's Department will be responding with requested resources.
- **2014-LAW-2307** Per USFWS, The mission has been postponed to Monday, March 10, with a backup date of March 11. They will provide a disposition at the conclusion of the mission. California Department of Fish and Wildlife (DFW) has requested California Air National Guard to assist in the movement of equipment and fuel between Farallon National Wildlife Refuge and the mainland. Approximately 3-4 sorties are expected with an HH-60G helicopter any one day between 2/24-28/2014 or before 3/15/2014. After receiving the official letter of request from USFWS on behalf of the California DFW, Cal OES LDO has changed the target date of the mission to 2/27/14, the county to Marin as Stinson Beach was Identified as the primary staging area and the resource to an HH-60.

Ongoing Cal OES Missions (Cont.)

- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

Cal OES Deployments

- **2014-FIRE-2622** Cal OES Assistant Fire Chief Chesmore deployed on March 27, 2014, with 72 CA-TF3 members, Menlo Park Fire Protection District (MNL) to Alaska for a training exercise under the direction of FEMA as part of Alaska Shield. They will be conducting 24 hour operations and return on Saturday, March 29. [On 3/30/2014 at 0330 hours, Chief Chesmore advised that he has returned home from the exercise.](#)
- **Alaska Shield 2014** encompasses a series of exercises over the course of nearly two years that build on a series of four prior statewide Alaska Shield exercises. Discussion-based workshops and table top exercises address the complexities of catastrophic planning, response, and recovery through subject-matter specific topics and scenarios. Topics include, but are not limited to: medical surge, mass casualty, mass care, activation of 2011 State EOP Catastrophic Annex task forces, and executive leadership. The capstone event of the Alaska Shield 2014 is the full-scale exercise. An earthquake scenario resulting in major disruption will (1) exercise the ability of communities to respond, assume responsibility for initial life safety needs at the local level; (2) assess the State's ability to coordinate resources and actions to quickly support and stabilize the life safety situation throughout the State, while planning forward for sustained response and long-term recovery; and (3) exercise joint state and federal response to a catastrophic event.

UPCOMING EVENTS, TRAINING, EXERCISES

Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

2014 Golden Guardian

Planning is currently underway for the Governor's 2014 exercise series. The series will test the *California Cascadia Subduction Zone Earthquake and Tsunami Response Plan* developed by FEMA Region IX and Cal OES

- Logistics Rehearsal of Concept Drill - April 2, 2014

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
